WHOLESALE U. S. Department of Agriculture PRICE LIST

SPRING, 1958

*86 Years of Service to the
Nursery Trade*

Terms and Conditions of Sale

TERMS—2% discount for payments in ten days from date of invoice, net, 30 days, to those with established credit. C.O.D. orders must be accompanied by one-fourth cash. Packing will be charged at cost on all orders except bulk truck or car shipments. 6% interest charged on past due accounts. All supplies are net.

PRICES in this list cancel all previously published prices and are subject to change without notice. Order in multiples of 10 of a variety and grade. These prices apply on the following quantities:

Fruit Trees, Shade Trees, Shrubs, Vines and Perennials

300 or more @ 1000 rate (where published).

30 to 300 @ 100 rate.

10 to 30 @ 10 rate.

Under 10 @ 25% above 10 rate.

All grades and varieties in any class allowed to make total. For example: All fruit trees are considered one class, all shrubs one class, etc.

Small Fruits, Hedge-plants, Privet, and all Lining-out Stock

300 of same variety and grade @ 1000 rates.

Under 300 of same variety and grade @ 100 rates.

Evergreen, B & B.

30 trees (any assortment) @ 100 rate.

5 trees (any assortment) @ 10 rate.

Note: Classifications as given above are understood to be as listed under general headings in price list. For example: Fruit Trees, Vines, Shrubs, etc.

Broken lots of less than 10 of any one variety and grade will be billed at 25% above the 10 rate.

BOXES will be charged at cost. BALES will be charged at actual cost of material and labor. No charge for loading bulk trucks or cars.

SHIPPING—Please tell us how and when to ship your order, whether by rail freight, motor freight, or express, stating route if you have a preference. In the absence of definite instructions we will forward shipment the way we think best, without assuming responsibility. We are on the Santa Fe and Missouri Pacific railroads. All shipments travel at risk and expense of purchaser.

TRUCK DELIVERIES—Bulk truck deliveries to customer's place of business can be made to many points at rates as low, or lower, than local freight rates. If you prefer to call for your stock with your own trucks, we should have several days' advance notice so we can have the stock ready.

NON-WARRANTY—We give no warranty, express or implied as to quality, life or productiveness of stock we sell. It is mutually agreed that our liability for stock proven untrue to name shall be limited to replacement or refund of original purchase price. All contracts subject to crop.

CLAIMS—All claims for any cause must be made in writing immediately upon receipt of goods. We will not entertain claims which are filed after goods have been accepted or which are not made within five days after arrival of stock.

SHRUBS

All of our shrubs are field-grown and graded according to the standards of the American Association of Nurserymen. Sizes noted in the descriptions indicate average height of shrubs at maturity. "Hortus Second" is the authority for most of the heights given.

Tied 12 to 18 in., 25; 18 to 24 in., and 2 to 3 ft., 10; 3 to 4 ft., 5 per bundle.

ALMOND, PINK FLOWERING *Prunus glandulosa rosea*

This continues to be one of the aristocrats among flowering shrubs. Neat habit of growth, never gets out of bounds. Withstands high temperatures, extreme droughts and intense cold. In early spring before the leaves appear the stems are covered with double pink flowers, making it very showy and highly ornamental. Should be in every shrub border for early spring color. Excellent for foundation planting. Our plants won't sucker because they are grown on their own roots. 3 to 5 feet.

	Per 10	Per 100	Per 1000
2 to 3 feet, own roots	6.00	55.00	—
18 to 24 inches, own roots	5.00	45.00	—
12 to 18 inches, own roots	4.00	35.00	—

ALMOND (*Prunus glandulosa*). Similar to the pink flowering form described above, but with white flowers.

White Flowering.

MENTOR BARBERRY**Berberis Mentorensis**

This barberry is one of the best ever introduced for the south and southwest. It withstands drought and high temperatures and in the south is evergreen. In Kansas it frequently holds its foliage until February; in places protected from winter sun it will remain green all winter. The foliage is large, thick, leathery, very attractive; red fruits in the fall and winter. It grows very bushy and will reach a height of 5 or 6 feet. There have never been enough of these plants to go around, it is in such great demand.

	Per 10	Per 100	Per 1000
2½ to 3 feet	8.50	80.00	—

9 to 12 inches	3.00	25.00	200.00

Thunbergi (Japanese Barberry). Low growing, spreading shrub with numerous thorns and attractive foliage that turns red in the fall. Yellow flowers and red berries. Fine for hedges and mass planting. This barberry does not carry wheat rust. 5 to 8 feet.

2 to 2½ feet	6.00	55.00	—
18 to 24 inches	5.00	45.00	400.00
15 to 18 inches	4.00	35.00	300.00
12 to 15 inches	3.50	30.00	250.00

BUDDLEIA**Butterfly Bush**

Butterfly Bushes are handsome shrubs with long narrow leaves, grow 3 to 4 feet high in one season, and come in a wide range of color: red, purple, lavender, pink, and white.

Butterfly Bushes like reasonably fertile well drained soil, and plenty of sunlight. In the northern two-thirds of the country the tops die down in the winter, but new tops are developed the next season and bloom the same year. Tops should be cut back every spring.

We offer you a selection of six of the very best varieties.

(See next page for varieties)

SHRUBS (Continued)

BUDDLEIA (Continued)

Charming. The most nearly pink Butterfly Bush we have seen. Large, rather open sprays on tall vigorous bushes.

	Per 10	Per 100	Per 1000
No. 1	4.00	35.00	—

Dubonnet. Live, reddish-purple, like the wine for which it is named. Extra long, full spikes. Continues to be one of the most popular.

No. 1	4.00	35.00	—
Medium	3.20	28.00	—
No. 2	2.50	22.00	—

Floralart. Developed in New Mexico by Mr. A. C. Miller and introduced by us. In our opinion it has the best flower of all because nearly the whole spike blooms at one time. On most other varieties the bottom flowers are faded before the top flowers open. For this reason Floralart makes best cut flowers. Handsome orchid-lavender flowers in large, full, very compact spikes. Medium size bush.

No. 1	4.00	35.00	—
Medium	3.20	28.00	—
No. 2	2.50	22.00	—

Red. As nearly red as you will find in Butterfly Bushes. This one is so good that we ought to give it a special name.

No. 1	4.50	40.00	—
No. 2	2.80	25.00	—

White Cloud. Does not grow so large as other varieties but makes neat compact bush completely covered with well formed spikes of white flowers. Especially good in borders and for cut flowers.

No. 1	4.50	40.00	—
-------	------	-------	---

CALICARPA DICHOTOMA (Purpurea) Purple Beautyberry. Large showy clusters of lavender-purple berries, pink flowers. 4 feet.

2 to 3 feet	5.50	50.00	—
18 to 24 inches	4.50	40.00	—
12 to 18 inches	3.50	30.00	—

CARYOPTERIS INCANA. BLUE MIST (Blue Beard, Blue Spirea). Compact, low-growing shrub, covered with masses of powdery-blue flowers from August to frost. Tops are perennial like Butterfly Bush. 5 feet.

No. 1	4.50	40.00	—
Medium	3.50	30.00	—
No. 2	2.50	22.00	—

CERCIS CANADENSIS (Redbud). Shrub form. Heart shaped leaves; rosy-red flowers in spring. 40 feet.

5 to 6 feet	20.00	190.00	—
4 to 5 feet	15.00	135.00	—
3 to 4 feet	10.00	90.00	—
2 to 3 feet	6.50	60.00	—

CHAENOMELES LAGENARIA (Flowering Quince)

Large scarlet flowers produced in great profusion in early spring before the leaves come out. A spectacular shrub and for that reason very popular. We grow ours from cuttings taken from blooming wood thereby insuring uniformity of flower and shrub.

3 to 3½ feet	6.00	55.00	500.00
2 to 3 feet	5.00	45.00	400.00
18 to 24 inches	4.00	35.00	300.00
12 to 18 inches	3.50	30.00	250.00

SHRUBS (Continued)**CHAENOMELES (Continued)****FLOWERING QUINCE****Apple Blossom**

The flowers of this variety bear a remarkable resemblance to apple blossoms in size, shape and color. In bud they are almost red; when fully open the flowers are a light pink with deeper tones near the outer edges. Blooms early before the leaves are fully developed. Shrubs are vigorous growers, and the tips of the leaves are red on the new growth.

	Per 10	Per 100
2 to 3 feet	9.00	80.00
18 to 24 inches	7.00	60.00
12 to 18 inches	5.50	45.00

FLOWERING QUINCE**Glowing-Ember (Trade Mark)**

We are proud to be the introducers of this superior strain of flowering Quince. It took many years of observation and selection to come up with this upright growing shrub of uniform habit, with brilliant red flowers. It is grown from cuttings of course, in order to perpetuate these desirable characteristics. 10 feet.

	Per 10	Per 100	Per 1000
3 to 3½ feet	7.00	60.00	550.00
2 to 3 feet	5.50	50.00	450.00
18 to 24 inches	4.50	40.00	350.00
12 to 18 inches	3.50	30.00	—

FLOWERING QUINCE**Indian Chief**

We have selected this as one of the best red flowering quinces of many varieties that we have tested over a period of years. The flowers are large, scarlet-red, appearing in great profusion before the leaves develop. The shrub is semi-upright, semi-dwarf with medium size dark green shiny foliage. The new growth is reddish in color.

	Per 10	Per 100
2 to 3 feet	9.00	80.00
18 to 24 inches	7.00	60.00
12 to 18 inches	5.50	45.00

FLOWERING QUINCE**Pink Lady**

Salmon or coral-pink flowers produced in large numbers early in the spring before the leaves develop. Very showy.

	Per 10	Per 100
2 to 3 feet	9.00	80.00
18 to 24 inches	7.00	60.00

SHRUBS (Continued)

CHAENOMELES (Continued)

FLOWERING QUINCE
Texas Pink

We have tested many varieties of flowering quince and in our opinion Texas Pink is the best pink. The flowers are quite large and clear pink. The shrub is a sturdy grower with a semi-upright habit of growth with long narrow dark green shiny leaves. The new growth is distinctly reddish adding greatly to the interesting appearance of the plant.

	Per 10	Per 100
3 to 3½ feet	11.00	100.00
2 to 3 feet	8.50	75.00
18 to 24 inches	5.00	45.00

CORNUS (Dogwood).

Alba sibirica (Siberian Dogwood). Coral-red branches, white flowers, blue berries. Especially attractive in winter. 10 feet.

	Per 10	Per 100	Per 1000
2 to 3 feet	6.00	55.00	—
18 to 24 inches	5.00	45.00	—
12 to 18 inches	3.50	30.00	—

Golden-twigs (C. stolonifera flavidiramea). Bright golden-yellow. Especially showy in the winter when leaves are off. 10 feet.

2 to 3 feet	6.50	60.00	—
18 to 24 inches	5.00	45.00	—
12 to 18 inches	3.50	30.00	—

Paniculata (Racemosa) Gray Dogwood. White fruits preceded by white flowers. Grayish bark. 15 feet.

3 to 4 feet	6.50	60.00	—
2 to 3 feet	5.50	50.00	—
18 to 24 inches	4.50	40.00	—
12 to 18 inches	3.00	25.00	—

Sanguinea (Bloodtwig Dogwood). Purple or red branches, large clusters white flowers, black fruit. Excellent for winter color. 12 feet.

2 to 3 feet	6.00	55.00	—
18 to 24 inches	5.00	45.00	—
12 to 18 inches	3.50	30.00	—

Stolonifera (Red-osier Dogwood). Dark red branches, large clusters of white flowers in early summer followed by bluish-white berries.

2 to 3 feet	6.00	55.00	—
18 to 24 inches	5.00	45.00	—
12 to 18 inches	3.50	30.00	—

COTINUS COGGYGRIA (Smoke Tree or Purple Fringe.) Rapid growing, highly ornamental shrubs with large panicles of smoky purple flowers. Thrives in heat and drought. 15 feet.

4 to 5 feet	16.50	150.00	—
3 to 4 feet	12.50	110.00	—
2 to 3 feet	9.50	85.00	—
18 to 24 inches	7.00	60.00	—

COTONEASTER

Acutifolia (Peking Cotoneaster). Slender, spreading branches, pinkish flowers. Black berries in fall. Desirable for individual specimens, shrub groups, or for hedges. Shears well for formal hedges. 12 feet. Thrives from Texas to North Dakota.

2 to 3 feet	6.00	55.00	—
18 to 24 inches	4.50	40.00	—
12 to 18 inches	3.50	30.00	—

SHRUBS (Continued)

COTONEASTER (Continued)

Divaricata. Handsome shrub with small dark green leaves, slender spreading branches, pink flowers, red berries; almost evergreen.

	Per 10	Per 100	Per 1000
2 to 3 feet	9.00	85.00	—
2 to 3 feet B & B	20.00	—	—
18 to 24 inches B & B	17.50	—	—

Multiflora. Hardy shrub, very decorative in bloom; bright red fruit. Slender arching branches. One of the best. 6 feet.

2 to 3 feet	9.00	85.00	—
-------------	------	-------	---

CRAPE MYRTLE (*Lagerstroemia indica*). Heads of bright creped flowers July to September. Red only. 20 feet.

18 to 24 inches	5.00	45.00	—
12 to 18 inches	4.00	35.00	—

CYDONIA (See Chaenomeles)

DESMODIUM PENDULIFLORUM (*Lespedeza formosum*). **Purple Bush-clover.** Perennial herbaceous shrub with gracefully arching branches. Covered with reddish purple flowers in September. Very desirable especially for the late blooming habit. 5 feet.

2 year No. 1	6.50	60.00	—
2 year medium	4.50	40.00	—

DEUTZIA

Corymbosa (Himalaya Deutzia). A new shrub from Himalaya region of Asia. Vigorous grower with large drooping panicles of very showy double white flowers.

12 to 18 inches	4.00	35.00	—
-----------------	------	-------	---

Gracilis (Slender Deutzia). A low-growing, graceful shrub with slender branches and many white flowers in early summer. 3 feet.

15 to 18 inches	6.00	55.00	—
-----------------	------	-------	---

Gracilis Rosea. Similar to Gracilis, but has pink flowers and is a stronger grower. Semi-dwarf. 4 feet.

18 to 24 inches	6.50	60.00	—
15 to 18 inches	5.50	50.00	—
12 to 15 inches	4.50	40.00	—

ELEAGNUS ANGUSTIFOLIA (Russian Olive). Very hardy, silvery leaves, fragrant flowers. Fruit is silvery yellow. 20 feet.

4 to 5 feet	10.00	90.00	—
3 to 4 feet	8.00	70.00	—
2 to 3 feet	6.00	55.00	—
18 to 24 inches	5.00	45.00	—

EUONYMUS

Alatus compactus. Yellow flowers May-June followed by red fruits. Brilliant fall colors, corky bark, hardy, semi-dwarf. 4 to 5 feet.

18 to 24 inches	12.00	110.00	—
12 to 18 inches	9.00	80.00	—

Europaeus. Hardy shrub with long serrated leaves. Yellow flowers and pink fruit which remains after leaves fall. Can be grown as a small tree. 20 feet.

3 to 4 feet	6.50	60.00	—
2 to 3 feet	5.50	50.00	—
18 to 24 inches	4.50	40.00	—

SHRUBS (Continued)**NIKKO BLUE HYDRANGEA****The Most Beautiful Hardy Blue Hydrangea**

Blue Hydrangeas are not new to American horticulture, but most of them have been tender varieties grown in greenhouses, and occasionally planted in gardens.

Now we have Nikko Blue, both hardy and beautiful. It has withstood temperatures of 20 degrees below zero. The tops die down to the ground every winter, but give them a little mulch protection and the crowns will grow into bushy shrubs in one season, 2 to 4 feet tall with attractive, luxuriant foliage and great masses of flowers.

Because the flowers are borne on the new wood, you get blooms every year, and lots of them. It is not at all unusual to see flower heads more than a foot across and the shrub completely covered with them—a wonderful show.

In alkaline soil the flowers are pink; in acid they are blue. It's easy to change alkaline soil into acid with aluminum sulphate (two tablespoons to a gallon of water).

There is a real vogue for Nikko Blue Hydrangeas. They are used for:

- Perennial Borders**
- Shrub Borders**
- Lawn Specimens**
- Planting in Tubs and Boxes**
- Foundation Plantings**

HANSEN'S BUSH CHERRY
Prunus besseyi

Because this shrub is almost always featured for its fruit-bearing qualities, its ornamental value is often overlooked. In fact if it bore no fruit at all it would be worthy of a place in the garden.

The foliage has an unusual blue-green tinge. The habit of growth is graceful and it never gets too large. Best of all, in the fall the foliage changes to brilliant purple and crimson. Large black fruits, good for preserves. 5 feet.

Hispida (Kashgar T.). We are often asked what tamarix we think to be the best. The answer is Hispida. It is a graceful shrub with fine feathery blue-green foliage and bright pink flowers that bloom off and on all summer. You can trim it to make a neat hedge or plant it for individual specimens. The foliage is useful for making bouquets, for which it is used by many florists. 7 feet.

3 to 4 feet	6.50	60.00	—
2 to 3 feet	5.50	50.00	—
18 to 24 inches	4.50	40.00	—
12 to 18 inches	3.00	25.00	—

NOTICE: The tops of tamarix must be cut back short when transplanting. If this is not done, they may fail to grow.

POLYGONUM (Silver Lacevine or Silvervine Fleeceflower)

Auberti. One of the fastest growing vines. Just the thing to cover a big area in a short time, either on a trellis or on the ground. Blooms the first year with great masses of foamy white flowers.

2 year, No. 1	5.00	45.00	400.00
2 year, Medium	4.00	35.00	300.00

SHADE AND ORNAMENTAL TREES

All our shade trees are grown in wide rows with plenty of space between them in the row to allow for proper development. Calipers are measured 6 inches above the collar. Sizes given in descriptions indicate height at maturity as given in "Hortus Second."

BALLED AND BURLAPPED SHADE TREES

Certain varieties and grades of shade trees can be balled and burlapped. For this service, there will be additional charge per tree as follows:

2 to 2½ inch cal.	\$6.00	6 to 8 feet	\$3.00
1½ to 2 inch cal.	\$5.00	5 to 6 feet	\$2.25
1¼ to 1½ inch cal.	\$4.00	4 to 5 feet	\$1.75
8 to 10 feet	\$4.00		

ASH (*Fraxinus*)

Green (*Fraxinus lanceolata*). Large round-topped trees with attractive compound leaves. Does well in semi-arid areas and high altitudes. Grows rapidly. 60 feet.

	Per 10	Per 100
1¼ to 1½ inch caliper	32.50	300.00
8 to 10 feet	25.00	225.00
6 to 8 feet	18.00	165.00
5 to 6 feet	12.50	110.00

Marshall's Seedless. Because this tree produces no seeds, and grows into a round symmetrical tree, it is desirable for street and lawn planting. Grows quite rapidly. 50 to 60 feet.

8 to 10 feet	30.00	275.00
6 to 8 feet	22.50	200.00

White (*Fraxinus americana*). Vigorous tree with compound leaves, dark green above, lighter beneath. Foliage turns deep purple and yellow in autumn. Good shade tree.

8 to 10 feet	25.00	225.00
6 to 8 feet	18.00	165.00
5 to 6 feet	12.50	110.00

Bald Cypress *Taxodium Distichum*

This is the famous Cypress from which comes the long-lasting Cypress lumber. But it also makes a beautiful ornamental tree with its majestic pyramidal top and soft feathery foliage. Especially desirable for planting on lawns, in parks, and along avenues.

Although it is native to the swamps and bayous of the South it is hardy as far north as Michigan, and it withstands extreme heat and drought. Truly a remarkable tree. Grows to about 150 feet.

Per 10
150.00
100.00
70.00
60.00

CATALPA

Bungei (*Umbrella Catalpa*). Small formal round-headed tree with large leaves. Desirable for formal plantings or where small trees are needed. Tops are cut back to prevent damage in shipping.

6 foot stems	30.00	275.00
--------------	-------	--------

SHADE AND ORNAMENTAL TREES (Continued)

COTTONWOOD

Cottonless. Rapid-growing drought-resistant tree with glossy foliage. produces no flowers, seeds or cotton. 60 feet.

	Per 10	Per 100
6 to 8 feet	9.00	80.00
5 to 6 feet	7.00	60.00

Mountain, Large-Leaf. A large leaf type from New Mexico. No flowers, seeds, or cotton. Very desirable shade tree in the Southwest. 50 to 75 feet.

6 to 8 feet	11.00	90.00
5 to 6 feet	7.50	60.00
4 to 5 feet	4.50	40.00

Mountain, Small-Leaf. Narrow leaf selection from New Mexico. Leaves lighter green than the large leaf and the trees are bushier. 50 to 75 feet.

8 to 10 feet	13.50	125.00
6 to 8 feet	11.00	90.00
5 to 6 feet	7.50	60.00
4 to 5 feet	4.50	40.00

FLOWERING CRABS

(Malus)

At long last, flowering crabs are getting the attention they deserve. First of all, Flowering Crabs are highly ornamental. Not only are the trees themselves attractive, but the flowers and fruits are decorative. Some varieties produce edible fruit, notably Hopa and Dolgo.

Flowering Crabs can also be used for shade. They are especially desirable for this purpose, on small home grounds where there is no room for the larger trees such as elms, oaks, and sycamores. Out of the many varieties of Flowering Crabs on the market, we have selected a group that we consider the best, based on years of observation.

Almey (Rosy Bloom). New. Deep crimson buds open to huge scarlet blooms with white star-like markings at base of each. Scarlet fruits. Excellent tree to pot for cash and carry sales. Usually blooms same year it is planted.

	Per 10	Per 100
5 to 6 feet	19.00	175.00

Eleyi (Eley Crab). Foliage red in spring, flowers vinous red, single; fruit red. 40 feet.
 5 to 6 feet 16.50 150.00
 4 to 5 feet 13.50 125.00
 3 to 4 feet 9.00 85.00
 2 to 3 feet 5.50 50.00

Floribunda, Red Fruiting (Japanese Flowering Crab). Buds coral red; flowers pale pink turning to snow white. The fruits on this variety are a showy red instead of the usual yellow.
 4 to 5 feet 13.50 125.00
 3 to 4 feet 9.00 85.00
 2 to 3 feet 5.50 50.00

SHADE AND ORNAMENTAL TREES (Continued)

FLOWERING CRABS (Continued)

7 HOPA FLOWERING CRAB

From early spring until freezing weather this tree will be a delight to you. In the spring the expanding foliage is bronzy red but before the leaves are fully developed the whole tree bursts into bloom, being completely covered with the most magnificent fragrant pink flowers. It is hard to imagine anything more showy.

The flowers are followed by the prettiest tiny red apples that bejewel the tree during the summer. You can make a good jelly from them.

	Per 10	Per 100
6 to 8 feet	16.50	150.00
5 to 6 feet	13.50	125.00
4 to 5 feet	9.50	90.00
3 to 4 feet	8.00	75.00

7 Jay Darling. Flowers and fruit purplish-red.

	Per 10	Per 100
5 to 6 feet	16.50	150.00
4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00

Klehm's Bechtel. Klehm's Improved. Dwarf crab, double pink flowers, improved strain. Larger leaves than Bechtel, more resistant to rust.

4 to 5 feet	15.00	135.00
3 to 4 feet	11.00	100.00
2 to 3 feet	7.00	65.00

Niedzwetzkyana (Red-Vein Crab). Single red flowers, red fruit; bark and wood reddish. 40 feet.

4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00
2 to 3 feet	5.50	50.00

Profusion. Large single carmine flowers. Bright red fruits, bronzy-red foliage.

4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00

Redfield (New). An apple for the lawn and other ornamental plantings because of its large and very dark pink flowers. The fruit is medium in size, dark deep solid red in color, with deep red flesh. The foliage is dark with a reddish green tinge early in the season. This and Redford are two very desirable ornamentals.

5 to 6 feet	16.50	150.00
4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00

Redford (New). A sister of Redfield and similar in all characters of tree and fruit. The petals are deep pink but not as dark as those of Redfield. The fruit is medium in size, deep dark solid red, with deep red flesh. The foliage has a characteristic reddish-green tinge early in the season. Lovers of handsome ornamental apples will plant this sort and Redfield.

5 to 6 feet	16.50	150.00
4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00

SHADE AND ORNAMENTAL TREES (Continued)
FLOWERING CRABS (Continued)

✓ **Red Silver.** Silver and red foliage. Crimson flowers, red fruit. Its semi-dwarf habit of growth makes it desirable where a small tree is needed.

	Per 10	Per 100
4 to 5 feet	15.00	135.00
3 to 4 feet	10.00	90.00
2 to 3 feet	6.50	60.00

✓ **Scheideckeri.** Flowers pale pink and semi-double. Yellow fruit. 25 feet.

4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00
2 to 3 feet	5.50	50.00

✓ **Van Eseltine (New).** A beautiful ornamental crab named in honor of the late originator. Buds pendulous and red, while open flowers are semidouble and pinkish white.

4 to 5 feet	13.50	125.00
3 to 4 feet	9.00	85.00

ELM (Ulmus).

American (Ulmus americana). America's best street tree. 120 feet.

2 to 2½ inch caliper	55.00	500.00
1½ to 2 inch caliper	37.50	350.00
1¼ to 1½ inch caliper	25.00	225.00
8 to 10 feet	18.50	175.00
6 to 8 feet	14.00	125.00

Chinese (Ulmus pumila) (Siberian). Very rapid grower. Makes good screens, hedges and specimens. Especially adapted to dry climates.

8 to 10 feet	18.50	175.00
6 to 8 feet	14.00	125.00
5 to 6 feet	9.00	85.00

SHADE AND ORNAMENTAL TREES (Continued)

ELMS (Continued)

CHINESE ELM
(Root-pruned seedlings)

These trees were root-pruned last year with a power cutter and they have been trimmed up to make nice shade trees. Note that they are offered both by height and caliper.

	Per 10	Per 100
6 to 8 feet, 11/16 inch and up	8.00	75.00
5 to 6 feet, 9/16 to 11/16 inch	5.50	50.00
4 to 5 feet, 7/16 to 9/16 inch	4.00	35.00

Hybrid (American-Chinese). Large, dark green leaves. Typical elm shape. Resistant to elm diseases.

	Per 10	Per 100
6 to 8 feet	27.50	250.00
5 to 6 feet	17.50	150.00
4 to 5 feet	13.50	125.00

Moline. Tall, columnar tree with large, dark green foliage. Grows very rapidly. Excellent street tree 75 to 100 feet.

1½ to 2 inch caliper	37.50	350.00
1¼ to 1½ inch caliper	30.00	285.00
6 to 8 feet	18.50	175.00

GLOBE LOCUST (See Locust)

HACKBERRY (*Celtis occidentalis*). Resembles American Elm. Desirable shade tree. It is not affected by the diseases that attack elms. 120 feet.

1½ to 2 inch caliper	47.50	450.00
1¼ to 1½ inch caliper	37.50	350.00
8 to 10 feet	28.50	275.00

LIQUIDAMBAR STYRACIFLUA (Sweet-gum). Large stately tree with fragrant star-shaped foliage that turns brilliant scarlet in autumn. Very desirable shade and ornamental tree. 75 to 100 feet.

1½ to 2 inch caliper, B & B	90.00	—
6 to 8 feet, B & B, heavy caliper	60.00	—
4 to 5 feet, B & B, heavy caliper	30.00	—

LIRIODENDRON TULIPIFERA (Tulip-tree). One of the noblest and tallest American trees. Interesting truncated leaves; large showy yellow blossoms. 100 to 150 feet.

1½ to 2 inch caliper, B & B	90.00	—
1¼ to 1½ inch caliper, B & B	75.00	—

MAGNOLIA SOULANGEANA (Saucer Magnolia). Hardy deciduous variety with large tulip-like pink and white flowers.

4 to 5 feet, B & B	75.00	—
3 to 4 feet, B & B	60.00	—

LOCUST (Robinia)

Idaho. (*R. pseudoacacia Idahoensis*). Rapid growing tree with large clusters of pink flowers like sweet peas; thornless. Very showy.

6 to 8 feet	30.00	275.00
-------------	-------	--------

MAPLE

Amur (*Acer ginnala*). Graceful tree or large shrub. Foliage shiny and 3 lobed, up to 3 inches long. Fragrant flowers in panicles. 20 feet.

6 to 8 feet	27.50	250.00
5 to 6 feet	22.50	200.00

(Maple continued on page 24)

CHRISTINE BUISMAN ELM

Extremely resistant to Dutch elm disease and phloem necrosis.

Grows quite rapidly. We have produced trees ten feet high in four years from small root-cuttings.

Produces straight stems of heavy caliper, with central leaders, without forks or crotches. It has slender but numerous, ascending branches, which produce a great mass of dark green foliage.

Young trees tend to have a broad base and a pyramidal top, but when mature become round topped, like the American Elm.

Highly satisfactory for both lawn and street planting.

The Christine Buisman Elm is an European selection (from Holland) of the Smooth Leaf European Elm (*Ulmus carpinifolia*). Repeated tests by the United States Department of Agriculture show that it is highly resistant to both phloem necrosis, and Dutch elm disease.

The testing was done under the direction of Dr. Roger U. Swingle, pathologist in charge of the Horticultural Crops Research Branch, Ornamental Crops Section, Worthington, Ohio. On July 19, 1954 Dr. Swingle reported as follows:

"The Christine Buisman Elm has been tested repeatedly for resistance to the Dutch elm disease and elm phloem necrosis since stock of the selection was received at this laboratory in 1946. We have subjected the tree to rather severe disease resistance tests during this priod and the selection has proven to be highly resistant to both of these diseases."

The Christine Buisman Elm has proven entirely hardy here in Ottawa for more than ten years and it has also survived the severe winters in the Chicago area. Mr. E. L. Kammerer, arboriculturist at the Morton Arboretum, Lisle, Illinois (near Chicago) wrote us on September 9, 1954:

"The Christine Buisman Elm, about which you inquire, has been on trial at the Morton Arboretum since the spring of 1949. At that time five 18 inch plants were received from the Bureau of Plant Industry at Columbus, Ohio. All plants still survive. They are apparently perfectly hardy in this area."

In order to perpetuate its disease resistance the Christine Buisman Elm must be propagated vegetatively. There can be no assurance that trees propagated by budding or grafting on elm seedlings will be disease resistant. Be sure the trees you buy have been propagated vegetatively. We propagate ours by root-cuttings which are carried a season in pots and then transplanted to the fields. The accompanying illustration of Buisman Elms in our nursery will show you what sturdy trees we produce.

CHRISTINE BUISMAN ELM

The Coming Shade Tree

Resistant to Elm Diseases

	Per 10	Per 100
1½ to 2 inch caliper (8 to 10 ft.)	65.00	
8 to 10 feet	45.00	400.00
6 to 8 feet	32.00	300.00
5 to 6 feet	23.50	225.00

SHADE AND ORNAMENTAL TREES (Continued)

MAPLE (Continued)

SOFT OR SILVER MAPLE (*Acer saccharinum*)

Fast-growing tree with gray bark and deeply cut leaves that are green above and silvery beneath. There has been a great increase in use of this tree in recent years because it grows rapidly thus giving quick shade and is adapted to a wide variety of soils and situations. It sometimes grows to a height of 60 to 80 feet or more.

Our trees are superior to the common run of nursery-grown soft maple because they are grown with central leaders without crotches, are well branched with straight smooth trunks of good caliper.

	Per 10	Per 100

18 to 24 inches, 5 canes and up	17.00	140.00
18 to 24 inches, 3 canes and up	14.00	125.00
18 to 24 inches, 2 canes	12.00	100.00
12 to 18 inches, 3 canes and up	12.00	100.00
12 to 18 inches, 2 canes	9.00	80.00
9 to 12 inches, branched	7.00	60.00

Amur River South. (*L. sinensis*). Very bushy plants with fine box-like foliage. Makes a beautiful, dense hedge. Suitable for planting in Oklahoma and south. Transplants.

18 to 24 inches, well branched	14.00	125.00
12 to 18 inches, well branched	12.00	100.00

California. Glossy green leaves, suited to southern half of the United States. Extremely popular for formal hedges.

2 to 3 feet, 4 canes and up	17.50	160.00
18 to 24 inches, 3 canes and up	15.00	125.00
12 to 18 inches, 3 canes and up	12.00	100.00

Regel. Low growing, dense, horizontal spreading branches. Desirable for low mass planting.

	Per 10	Per 100	Per 1000
2 to 2½ feet, spread, well branched	5.50	50.00	
18 to 24 inches, spread, well branched	4.50	40.00	350.00
12 to 18 inches, spread, well branched	3.00	25.00	220.00

SPREADING AMUR PRIVET

A selection of the hardy Amur River North Privet that grows horizontally like the Regal Privet. Grows more rapidly than Regel. Can be used wherever the latter is planted.

	Per 10	Per 100	Per 1000
2 to 3 feet	5.00	45.00	400.00
18 to 24 inches, spread	4.00	35.00	300.00
12 to 18 inches, spread	3.00	25.00	200.00

ERECT BORDER PRIVET

(*Obtusifolium erecta*)

New! Here is one which produces a dense hedge more quickly than Amur Privet North. It has a dense, branching habit of growth, and grows rapidly, branching better than Amur. Holds green foliage longer than Amur. Large lustrous foliage and it is hardy!

	Per 100	Per 1000
2 to 3 feet, 4 canes and up	18.00	150.00
18 to 24 inches, 3 canes and up	14.00	125.00
12 to 18 inches, 3 canes and up	12.00	100.00

EVERGREENS

The name Willis has become synonymous with Quality in evergreens and there is good reason for it.

A crew of trained men spends most of its time in our evergreens shearing and pruning with skilled hands to insure compactness and symmetry. No diseases or insect pests are permitted a foothold in our trees and no weeds, noxious or otherwise, will be found in our evergreen blocks. We would like to have you come to see for yourself.

All of our evergreens are grown in soil especially suitable for balling. Although we cannot assume responsibility for results, our evergreens have given satisfaction throughout the middlewest.

All evergreens are priced balled and burlapped (B & B).

WILT-PRUFING

If you would like to have your evergreens sprayed with Wilt-Pruf before they are dug, we are prepared to do it for the following additional charges:

Upright	Spreaders	Cost per tree
Up to 3 feet	Up to 24 inches	\$.25
3 feet to 5 feet	24 inches to 36 in.	\$.30
Over 5 feet	Over 3 feet	\$.35

CUPRESSUS (Cypress)

Arizonica. Blue whipcord foliage. Grows in a compact pyramidal form with little shearing. Withstands heat and drought. Hardy at Ottawa. Grafted trees.

	Each Per 10	Each Per 100
5 to 6 feet	7.50	6.50
4 to 5 feet	6.50	5.50
3 to 4 feet	5.50	5.00

Arizonica Gareei. Bright blue foliage.

3 to 4 feet	5.75	5.25
2 to 3 feet	5.00	4.50

EUONYMUS (See Broadleaf Evergreens)

JUNIPERUS (Juniper)

Chinensis Blue Vase (Sometimes called Texas Star). Grows naturally in vase shape, attractive bluish foliage.

15 to 18 inches	3.00	2.75
12 to 15 inches	2.50	2.25

Chinensis columnaris, blue. Compact, columnar form. Definite blue cast to foliage.

2 to 2½ feet	4.50	4.25
18 to 24 inches	3.75	3.50

JUNIPER SCOPULORUM

Platinum

An Outstanding New Evergreen
(Plant Patent No. 1070)

This splendid new Juniper, recently introduced by us, is finding wide acceptance. Its brilliant silvery blue color is retained the year around. It grows fairly rapidly, but because the foliage is so dense, very little shearing is required to make it compact and symmetrical. Especially adapted to the Great Plains, the Mountain states, and the Southwest. It has never blighted with us. Upright pyramidal shape.

	Each Per 10	Each Per 100
3 to 3½ feet	5.50	5.25
2½ to 3 feet	5.00	4.75
2 to 2½ feet	4.50	4.25

PINUS (Pine)

Ponderosa (Western Yellow Pine). Long, dark green needles.

4 to 5 feet	8.00	7.50
3 to 4 feet	6.50	6.00
2 to 3 feet	5.00	4.50

Strobus (White Pine). Medium long needles, soft, bluish-green.

4 to 5 feet	8.00	7.50
3 to 4 feet	6.50	6.00
2 to 3 feet	5.00	4.50

Sylvestris (Scots Pine). Short, twisted bluish-green needles. Grows fairly rapidly and assumes picturesque forms when mature.

2 to 3 feet	5.00	4.50
-------------	------	------

Euonymus Dupont

Euonymus Dupont has many uses:

Hedges, formal and informal. Its fine foliage and dense growth make it a good substitute for boxwood. Excellent for bordering gardens, walks, drives, etc. Can be kept as low as six inches.

Foundation Plantings on the new style low houses made of Euonymus Dupont are very effective and inexpensive.

Picture Windows are often so close to the ground there is little room for planting under them. Euonymus Dupont will solve this problem with either a formal or informal planting.

Planter Boxes. Euonymus Dupont gives a rich effect in planter boxes. Can be used with flowers for color.

Walls. Large expanses of bare walls can be softened by planting Euonymus Dupont against them. It will adhere to stone, brick and stucco.

Two-year-old plant of Euonymus Dupont dug from nursery row Note the mass of fibrous roots.

BROADLEAF EVERGREENS

COTONEASTER

Divaricata. Handsome shrub with small dark green leaves, slender spreading branches, pink flowers, red berries; almost evergreen.

	Per 10	Per 100
2 to 3 feet, B & B	20.00	—
18 to 24 inches, B & B	17.50	—

EUONYMUS FORTUNEI. Broadleaf evergreen vine with thick, dark green foliage. Will cling to rough surfaces and can also be used for ground cover.

2 inch pots	2.50	20.00
-------------	------	-------

EUONYMUS FORTUNEI, UPRIGHT, SARCOXIE (*Upright Euonymus Radicans*). New. Grows upright naturally. Makes good shrubs and thick hedges. Can be staked and sheared into columns. Dark green leaves and stems the year round. Transplants easily bare root. We consider this one of the best and most useful broadleaf evergreens introduced in recent years. Strong field-grown plants.

15 to 18 inches, B & B	22.50	200.00
12 to 15 inches, B & B	20.00	175.00
10 to 15 inches, BR	5.50	50.00
6 to 10 inches, BR	4.00	35.00

EUONYMUS FORTUNEI MINIMUS. Small dark green leaves. A creeping plant that will cling to brick, stone, stucco and rough boards. Use in rock gardens and on foundations and low walls.

2 inch pots	3.00	25.00
-------------	------	-------

EUONYMUS PATENS. (Kiatschovicus). Heavy, field-grown, large leaf variety for mass or formal plantings, or as individual specimens.

15 to 18 inches, BR	4.50	40.00
10 to 15 inches, BR	3.50	30.00

EUONYMUS FORTUNEI VEGETUS. Large round leaves, thick and leathery. Use as shrub or vine.

2½ inch pots	2.50	20.00
--------------	------	-------

EUONYMUS PATENS (Small Leaf). Ideal for evergreen hedges. Makes a very bushy plant that may be allowed to grow informally, or by shearing can be made into a compact formal hedge anywhere from 10 inches to 3 feet high. Excellent substitute for boxwood in the middle-west. Use for boundary hedges, or for enclosing rose and flower gardens and for formal planting. This is an extremely useful plant.

Can be planted any time of the year. Transplants very easily with a minimum of loss.

18 to 24 inches, B & B	27.50	250.00
15 to 18 inches, B & B	22.50	200.00
12 to 15 inches, B & B	19.50	175.00

BLEEDING HEART (See <i>Dicentra</i>)		

COREOPSIS (Tickseed)

Mayfield Giant. Best, large deep golden-yellow.	1.90	16.00
---	------	-------

DAISY, SHASTA, Alaska. Large white flowers, yellow center.	1.40	12.00
---	------	-------

DICENTRA SPECTABILIS (Old-Fashioned Bleeding Heart). Large heart-shaped pink flowers on gracefully drooping branches, early spring. 3 to 5 eye divisions.	4.50	40.00
--	------	-------

GAILLARDIA (Blanket Flower)

Burgundy. Deep wine-red. Practically no yellow in it.	1.90	16.00
---	------	-------

Dazzler. Large flowers, bright golden yellow with rich maroon-red center.	1.90	16.00
---	------	-------

HELIANTHUS
Loddon's Gold. (Perennial Double Sunflowers)

One of the finest perennials for cutting. The flowers resemble double dahlias several inches across. Bright clear yellow. Produces a large (3 to 5 foot) well-branched plant, covered with flowers most of the summer and until killing frost. Thrives in hot weather and will withstand lots of drought. The flowers are long-lasting. Loddon's Gold is the best variety of this splendid perennial that we have found.

LINING-OUT STOCK

Better stands. Pot plants have a better root system and stand the shock of transplanting better than bare root stock. You get better stands; it costs you less per plant care for them in the field; you have more finished stock to sell.

Better growth. Pot plants start off quicker and make a better first season growth; thus they are ready to market sooner.

You can plant later. Pot plants can safely be set out in the field much later than bare root stock. This gives you more planting time in your busy season. With irrigation you can plant nearly all summer.

Minimum Quantities. Please do not order less than 25 of any one plant. 300 of any one variety supplied at 1,000 rate.

Plantainers

NO MORE SEASONAL LIMITATIONS TO SALES

PLANTAINER-grown nursery stock can be confidently sold and planted from early spring to late fall. Nurseries, garden shops and plant marts no longer class container-grown plants as perishable.

Flowering shrubs and trees can be sold at the height of their most attractive period. Uniform eye appeal—attractive **PLANTAINERS** improve the appearance of all evergreens, trees, shrubs and make possible a better product in a far better sales package. No messy burlap or tar paper—just tap your **PLANTAINER** and the plant is ready to grow with an undisurbed root system.

No setback—No losses!

CONTROL THE VARIABLES IN YOUR GROWING OPERATION

Every variety of tree or shrub can be grown in the soil mixture best suited to its requirements, and the nutrient level of this mixture readily maintained. No expensive plant food or water is wasted on weed crops, headlands, or between field rows. Drought periods do not exist with **PLANTAINER** culture.

LOWER PRODUCTION COSTS

No expensive digging or balling of plants . . . **PLANTAINER** stock is ready to deliver at all times.

More salable plants can be grown in less space. One acre will actually hold 184,240 **PLANTAINERS**. If one half of this theoretical acre were devoted to walks, service drives and display areas, there would still be space for 92,120 **PLANTAINER** items.

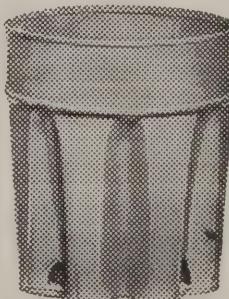

HERE IT IS IN A NUTSHELL

1. Healthier plants—stronger root system—attested to by satisfied users.
2. Tapered and crimped—permits nesting—space and time saving.
3. Have no rough edges—no serious hand and finger cuts.
4. Made of metal—durable—unbreakable.
5. Clean and sanitary—don't attract vermin and flies.
6. Painted green (baked enamel).
7. Enhance the beauty of plants and flowers.
8. Outlast other nursery cans—result—economy!—larger profits.

CONTAINER-GROWN NURSERY STOCK

In keeping with the trend of the times, we are now growing a large assortment of nursery stock in metal containers. Nurserymen all over the country are becoming interested in container-grown stock because they recognize its many advantages.

Our one gallon and two gallon cans are all PLANTAINERS. These cans are all tapered like a flower pot so it is not necessary to cut the can to remove the plant.

There are many reasons why you can make money with container-grown nursery stock. Here are some of them:

It is ready for the customer whenever he wants it. You lose fewer sales.
It is more convenient both for you and the customer because it is already "packaged."

It displays more attractively than bare root stock.

It extends your selling season by weeks and even months, thus increasing sales and profits.

It can be delivered to the customer in prime condition.

The customer gets better results and you get fewer complaints.

Your stock losses are less, because unsold stock can be carried over to the next season.

It appeals to a wider market, thus increasing volume of sales.

The customer can see exactly how plants look when in leaf and bloom. Inventory control is simplified by the use of container stock. It is easier to maintain a balanced stock.

Write for special price-list of container-grown nursery stock.

Well-grown container stock in our nursery.

"OPERATING A GARDEN CENTER"

by John J. Pinney

★ 25 Chapters ★ 125 Pages ★ 61 illustrations

This book covers all phases of garden center operation. It will help those who are planning to build a garden center to avoid many mistakes. Those who have established garden centers will find in it many ideas for the more profitable operations of their business.

Bound in a handsome, green plastic cover and printed on heavy white enameled stock.

\$3.00 per copy, postpaid

WILT-PRUF

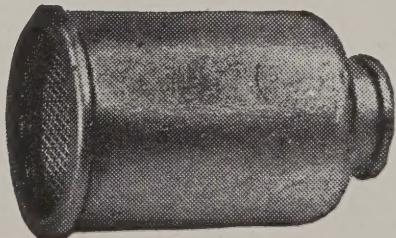

WILT-PRUF

Wilt-Pruf is a liquid plastic. When plant materials are sprayed or dipped in Wilt-Pruf, they are enclosed in a colorless protective plastic film which brings out the inherent beauty of the plant and then performs the important duty of protecting the plant against such menaces as drying out when in-doors, or winter-burn and summer-scald when out-doors.

5 gallon cans	\$30.75
1 gallon glass jugs (mailable)	6.60
